CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q (the "Quarterly Report") includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). All statements, other than statements of historical fact included in this report, regarding our strategy, future operations, financial position, estimated revenue, projected costs, prospects, plans and objectives of management are forward-looking statements. When used in this Quarterly Report, the words "could," "believe," "anticipate," "intend," "estimate," "expect," "project" and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain such identifying words. These forward-looking statements are based on management's current expectations and assumptions about future events and are based on currently available information as to the outcome and timing of future events. When considering forward-looking statements, you should keep in mind the risk factors and other cautionary statements described under, but not limited to, the heading "Item 1A. Risk Factors" included in the Annual Report of Generation Hemp, Inc. (the "Company") on Form 10-K for the year ended December 31, 2021 (the "Annual Report") and our other filings with the Securities and Exchange Commission ("SEC").

Forward-looking statements may include statements about:

- the risk that our results could be adversely affected by natural disaster, public health crises (including, without limitation, the COVID-19, outbreak), political crises, negative global climate patterns, or other catastrophic events:
- the marketability of our products;
- financial condition and liquidity of our customers;
- competition in the hemp markets;
- industry and market conditions;
- requisition of our services by major customers and our ability to renew processing and services contracts;
- credit and performance risks associated with customers, suppliers, banks and other financial counterparties;
- availability, timing of delivery and costs of key supplies, capital equipment or commodities;
- our future capital requirements and our ability to raise additional capital to finance our activities;
- the future trading of our common stock;
- legal and regulatory risks associated with OTC Markets;
- our ability to operate as a public company;
- our ability to protect our proprietary information;
- general economic and business conditions; the volatility of our operating results and financial condition;
- our ability to attract or retain qualified senior management personnel and research and development staff;
- timing for completion of major acquisitions or capital projects;
- our ability to obtain additional financing on favorable terms, if required, to complete acquisitions as currently contemplated or to fund the operations and growth of our business;
- operating or other expenses or changes in the timing thereof;
- compliance with stringent laws and regulations, as well as changes in the regulatory environment, the adoption of new or revised laws, regulations and permitting requirements, especially with respect to the industry in which we operate;
- potential legal proceedings and regulatory inquiries against us; and
- other risks identified in this report that are not historical.

We caution you that these forward-looking statements are subject to a number of risks, uncertainties and assumptions, which are difficult to predict and many of which are beyond our control, including risks specific to the industry in which we operate. Moreover, we operate in a very competitive and rapidly changing environment and new risks emerge from time to time. It is not possible for our management to predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we may make. Although we believe that our plans, intentions and expectations reflected in or suggested by the forward-looking statements we make in this Quarterly Report are reasonable, we can give no assurance that these plans, intentions or expectations will be achieved or occur, and actual results could differ materially and adversely from those anticipated or implied in the forward-looking statements. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results.

All forward-looking statements, expressed or implied, included in this report are expressly qualified in their entirety by this cautionary statement and speak only as of the date of this Quarterly Report. This cautionary statement should also be considered in connection with any subsequent written or oral forward-looking statements that we or persons acting on our behalf may issue.

Except as otherwise required by applicable law, we disclaim any duty to update any forward-looking statements, all of which are expressly qualified by the statements in this section, to reflect events or circumstances after the date of this report.

Generation Hemp, Inc. Notes to Unaudited Condensed Consolidated Financial Statements

1. Business

Generation Hemp, Inc. (the "Company") was incorporated on August 21, 2021 in the State of Delaware. The Company was originally incorporated as Home Treasure Finders, Inc. ("HTF") on July 28, 2008 in the State of Colorado. On November 27, 2019, HTF purchased approximately 94% of the common stock of Energy Hunter Resources, Inc. ("EHR") in a series of transactions accounted for as a reverse merger. Upon closing, HTF changed its name to Generation Hemp, Inc.

On January 11, 2021, we completed the acquisition of certain assets of Halcyon Thruput, LLC ("Halcyon"). With this acquisition, we commenced providing post-harvest and midstream services to growers by drying, processing, cleaning and stripping harvested hemp directly from the field and wetbaled at our 48,000 square foot leased facility located in Hopkinsville, Kentucky. Additionally, the Company offers safe storage services for processed hemp, which enables farmers to maximize strategic market timing. In August 2021, the Company launched its small animal bedding consumer goods product line ("Rowdy Rooster") made from the hemp hurd byproduct that is produced from its hemp processing operations.

We also generate revenue from rental of our "Cannabis Zoned" (Hemp) warehouse property located in Denver, Colorado currently leased to an unaffiliated hemp seed company.

As of June 30, 2022, EHR held an approximate 8% working interest in an oil & gas property located in Cochran County, Texas within the Slaughter-Levelland Field of the San Andres formation in the Northwest Shelf of West Texas. EHR's oil & gas activities are currently held for sale and are presented in these consolidated financial statements as discontinued operations for each of the periods presented.

Our management team has been and continues to actively review acquisition candidates involved in the hemp industry that operate within a number of vertical businesses, predominantly within the midstream sector that are attractive to us and are within the hemp supply chain.

New Business Line – During the second quarter of 2022, management and the Board decided to enter a new but related line of business – bitcoin mining. Management determined after research that hemp biomass can be burned in a biomass boiler to generate heat and steam to drive a turbine for generating electricity. The BTU value of hemp is similar to wood waste generated at saw mills. Hemp plants grow to maturity within six to eight months whereas trees mature in excess of ten years.

The Company subsequently formed a new company, GenCrypto, LLC (a Delaware limited liability company) with a 50% partner, Cerberus Digital, LLC, an affiliate of Cryptech Solutions, Inc. Cryptech is one of the largest resellers of bitcoin mining equipment in North America.

GenCrypto now has approximately ten different bitcoin locations identified and either under contract, under letter of intent, or in final negotiating status, located in three states and in Costa Rica. All of these site locations are deemed "green" based upon the power being provided either from the local utility or coop. They range in power size from 1.1 megawatts to 50 megawatts. GenCrypto has been contacted by several larger bitcoin mining operators concerning utilizing some of these mining locations under "hosting" arrangements.

The Company anticipates closing its first acquisition which is currently operational in September 2022.

Liquidity and Going Concern – The Company is dependent upon obtaining additional funding to continue ongoing operations and to pursue its strategy and execute its acquisition plans.

In the six months ended June 30, 2022, the Company used \$1.0 million of cash for its operating activities. At June 30, 2022, the Company's current liabilities, including financing obligations due within one year, totaled \$6.0 million as compared with its current assets of \$364 thousand.

The Company will continue to pursue additional capital raising opportunities in order to fund future acquisitions and meet its obligations as they become due. We may not be successful in obtaining additional financing needed. In the event financing cannot be obtained, the Company may not be able to satisfy these plans and obligations. These factors raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Impact of COVID-19 Pandemic on Our Business – Our business, results of operations and financial condition were adversely affected by the COVID-19 pandemic. The COVID-19 pandemic and measures taken to contain it subjected our business, results of operations, financial condition, stock price and liquidity to a number of material risks and uncertainties, all of which may continue or may worsen.

2. Summary of Significant Accounting Policies

Basis of Presentation – These interim financial statements are unaudited and have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC") regarding interim financial reporting. Certain disclosures have been condensed or omitted from these financial statements. Accordingly, they do not include all the information and notes required by accounting principles generally accepted in the United States of America ("GAAP") for complete consolidated financial statements, and should be read in conjunction with the audited consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2021.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements include all adjustments, consisting of normal recurring adjustments, necessary to fairly present the financial position as of, and the results of operations for, all periods presented. In preparing the accompanying financial statements, management has made certain estimates and assumptions that affect reported amounts in the condensed consolidated financial statements and disclosures of contingencies. Actual results may differ from those estimates. The results for interim periods are not necessarily indicative of annual results. Certain reclassifications have been made to the prior period's consolidated financial statements and related footnotes to conform them to the current period presentation. Intercompany balances and transactions between consolidated entities are eliminated.

Fair Value Measurement – Our financial assets and liabilities consist of cash, accounts receivable, accounts payable and indebtedness. The fair values of these instruments approximate their carrying amounts at each reporting date.

Major Customer and Concentration of Credit Risk – We estimate an allowance for doubtful accounts based on an analysis of specific customers, taking into consideration the age of past due accounts and an assessment of the customer's ability to pay. An allowance for doubtful accounts was not needed as of June 30, 2022 or December 31, 2021.

During the three and six months ended June 30, 2022, one customer accounted for 99% of our post-harvest and midstream services revenue. A total of \$91,185 was outstanding from this customer at June 30, 2022.

Our rental revenue is derived from a single lessee on a commercial warehouse owned by the Company. There were no amounts due from this customer at June 30, 2022 or December 31, 2021.

Recent Accounting Pronouncements – There are no other new accounting pronouncements that are expected to have a material impact on the consolidated financial statements.

3. Property and Equipment

Property and equipment consisted of the following:

	Useful Life (yrs)	June 30, 2022	December 31, 2021

Other assets included \$407,000 at June 30, 2022 and December 31, 2021 for the Company's option to purchase the 48,000 square foot facility located in Hopkinsville, Kentucky presently leased from Halcyon. Under this option agreement, the Company may purchase the facility on or before August 25, 2022, as amended, for a purchase price of \$993,000.

5. Notes Payable - Related Parties

Inne 30

December 31

Subordinated Promissory Note to CEO – Our CEO made advances to the Company during 2020 under a subordinated promissory note initially due September 30, 2021. This note was amended to a new maturity date of September 30, 2022. If the Company raises new equity capital of \$3 million or more, then the full amount outstanding under the note is due within five days. The note bears interest at 10% per annum. Accrued interest on this subordinated promissory note totaled \$33,565 at June 30, 2022.

Convertible Promissory Note to CEO – In 2021, our CEO made advances totaling \$410,000 to the Company under a convertible promissory note. Additional advances made in 2022 through June 30 totaled \$627,069. The convertible note initially matured on January 1, 2022 but was subsequently amended to extend the maturity date to September 30, 2022. If the Company raises new equity capital of \$3 million or more, then the full amount outstanding under the note is due within five days. The note bears interest at 10%. The principal and interest due on the convertible note may be converted, at the option of the holder, into restricted shares of the Company's common stock at an initial conversion price of \$0.50 per share but that was lowered in July 2022 to \$0.30 per share. Accrued interest on this convertible promissory note totaled \$52,291 at June 30, 2022.

Secured Promissory Note and Warrants to Coventry Asset Management, LTD. — On December 30, 2020, the Company received proceeds from issuance of a secured promissory note in principal amount of \$1,000,000 to Coventry Asset Management, LTD, a Company stockholder. The promissory note is secured by the property acquired in the acquisition of certain assets of Halcyon. The unpaid balance of the secured promissory note bears interest at a rate of 10% per annum and initially matured on June 30, 2021. The promissory note has been extended six times including the issuance of 20,000 restricted common shares as extension fees each for the first five extensions and the issuance of 50,000 restricted common shares for the sixth extension. The maturity date of the promissory note is December 31, 2022, as amended. If before December 31, 2022, the Company raises new equity capital of \$5 million or more, then the full amount outstanding under the promissory note is due within five days. As amended, a payment of 25% of the principal balance of the note is due by October 31, 2022. If the promissory note is not paid in full by December 31, 2022, the interest rate increases to 14% per annum. Accrued interest on this secured note totaled \$149,864 at June 30, 2022.

Subordinated Promissory Note and Warrants to Investor — On December 30, 2020, the Company issued a subordinated promissory note in principal amount of \$500,000 to an accredited investor who is also a Company stockholder. The unpaid balance of the Subordinated Note bears interest at a rate of 10% per annum. The Company made a principal payment of \$250,000 in April 2021. The subordinated note principal together with accrued and unpaid interest was due, as previously amended, on March 31, 2022 but was subsequently extended. As subsequently amended, a payment of \$50,000 was made in April 2022 and the remaining principal of \$200,000 together with accrued interest was due on June 30, 2022. The Company did not make the principal payment due on June 30, 2022 and, as a result, this note is presently in default. Accrued interest on this subordinated promissory note totaled \$29,932 at June 30, 2022.

The holder of the subordinated note received a warrant to purchase 500,000 shares of common stock exercisable for cash at an exercise price of \$0.352 per share. As consideration for the April 2022 extension, the term of this warrant was extended by one year to December 30, 2023. The Company recognized \$68,756 of interest expense in 2022 for this extension of the warrant term.

Promissory Note to Investment Hunter, LLC – In 2022, Investment Hunter, LLC, a Texas LLC controlled by our CEO, made advances totaling \$492,000 to the Company under a promissory note due September 30, 2022, as amended. If the Company raises new equity capital of \$3 million or more, then the full amount outstanding under the note is due within five days. The note bears interest at 10% per annum. Accrued interest on this subordinated promissory note totaled \$17,864 at June 30, 2022.

6. Other Indebtedness

The Company is obligated under a mortgage payable dated September 15, 2014 secured by its warehouse property located in Denver, Colorado. The note provided for a 25-year amortization period and an initial interest rate of 9% annually. The note has been amended several times to a maturity date of September 30, 2022. In the latest extension, the Company made a principal payment of \$25,000 plus accrued interest on July 18, 2022 and agreed to another principal payment of \$25,000 plus accrued interest on August 31, 2022. The interest rate on the mortgage payable is 12%. If before the final maturity of the mortgage payable, the Company raises new equity capital of \$5 million or more, then the full amount outstanding is due within ten days. The principal balance of this mortgage note payable as of June 30, 2022 was \$473,192.

The Company leases the Denver warehouse property to a tenant under an operating lease which was renewed with a new tenant and extended to August 1, 2023 for a monthly rent of \$7,500. The lease requires a true-up with the tenant for property taxes and insurance paid by the Company and requires the tenant to maintain the interior and exterior of the warehouse (except for the roof). The lease provides for a rent abatement in the first and last month of the contracted extension. Minimum future rents for the remainder of 2022 are \$45,000 and for 2023 are \$52,500.

7. Commitments and Contingencies

Leases – The Company leases office space in Fort Worth, Texas for managerial offices. This lease requires monthly payments of \$2,000 and is month-to-month. Lease expense for this facility totaled \$4,000 and \$12,000 for the three and six months ended June 30, 2022, respectively. In the three and six months ended June 30. 2021, lease expense for this facility was \$6,000 and \$10,000, respectively.

The Company leases its operating facility in Kentucky from Oz Capital, LLC, a related party, under a lease expiring May 31, 2024. The lease provides for monthly payments of \$10,249. Oz Capital, LLC is responsible for all taxes and maintenance under the lease. Lease expense for this facility totaled \$31,147 and \$61,494 in the three months ended June 30, 2022, respectively. In the three and six months ended June 30. 2021, lease expense for this facility was \$30,747 and \$57,857, respectively. A right-of-use asset and lease liability is recorded for this lease. As the lease does not provide an implicit rate, the Company used its estimated incremental borrowing rate of 10% in determining the present value of the lease payments.

Litigation – From time to time, we are subject to various litigation and other claims in the normal course of business. Below is a discussion of specific matters. We cannot estimate the ultimate outcome of these matters.

Generation Hemp, Inc. v. Colorado Mills Equipment, LLC

The Defendant sold to the Company a faulty piece of equipment for \$16,000 and will not refund the Company the purchase price after repeated attempts to return their equipment. An original lawsuit was filed by the Company against Colorado Mills in January 2022 in Dallas County, subsequently dismissed, and a second lawsuit has been filed El Paso County, Colorado and is currently pending.

Halcyon Thruput, LLC, Plaintiff v. United National Insurance Company, Defendant, United States District Court for the Northern District of Texas, Dallas Division, Case No. 3:21-CV-3136-K.

Halcyon Thruput, LLC (Halcyon) obtained an all-risks commercial insurance policy, including an Equipment Breakdown Endorsement (Policy) from United National Insurance Company (UNIC) to provide substantial coverages for Halcyon Thruput LLC's (Halcyon) \$1,203,735 hemp processing dryer (Dryer) at its facility in Hopkinsville, Kentucky. During the Policy period, the Dryer caught fire due to the Dryer being defectively designed.

While UNIC paid a number of Halcyon's claims, Halcyon's claim for the cost of the replacement Dryer of \$1,498,848 was denied as described below.

Buyer, a wholly owned subsidiary of the Company, pursuant to an Asset Purchase Agreement as twice amended, then acquired all the assets of Halcyon, except for the right to the proceeds of UNIC's insurance policy since the Policy prohibited assignment. Halcyon and Buyer agreed that Buyer's principal, Gary C. Evans, had the right to control the litigation, engage counsel for Halcyon and make all decisions relating to any proceeds received in the litigation by settlement or otherwise.

Halcyon's suit against UNIC, which was removed to federal court, seeks \$796,865.53 (the cost of the replacement dryer of \$1,498,848, less a credit for \$583,508.47 previously paid by UNIC to Halcyon for the Dryer fire=\$915,339.53) plus statutory interest on that sum from August 10, 2020 for violating the Texas Insurance Code's requirement that claims be promptly paid, additional statutory penalties, and attorneys' fees. Certain documents have been executed between the Company, Halcyon and legal counsel, which provide for a sharing of costs and expenses and awards, if any, against UNIC. Mediation of the case was held in April 2022 where no agreement was reached by the parties. Depositions of the Company's expert witnesses were completed in July 2022.

JDONE, LLC v. Grand Traverse Holdings, LLC and John Gallegos, Denver District Court Case No. 2019CV33723

JDONE, LLC ("JDONE") is a wholly owned subsidiary of the Company and landlord of a commercial warehouse building that was previously leased to Grand Traverse Holdings, LLC on December 31, 2018 for a term of 61 months, with a personal guaranty from Defendant, John Gallegos. On April 12, 2019, Grand Traverse presented JDONE with an alleged forged, signed copy of the draft early termination amendment that JDONE had previously rejected. JDONE has suffered damages due to Defendant's alleged misconduct of approximately \$823,504 plus interest and attorney's fees exceeding \$400,000. A court ordered mediation was held in May 2020 without success. All material defendant motions have been denied by the court. The case is set for jury trial in July 2022. We believe that Grand Traverse Holdings, LLC and John Gallegos are jointly liable for the asserted damages which exceed \$1 million plus attorney's fees and we continue to vigorously pursue our claims.

KBSIII Tower at Lake Carolyn, LLC and Prime US-Tower at Lake Carolyn, LLC (collectively - "KBSIII" v. Energy Hunter Resources, Inc.)

Plaintiff/Counterdefendant KBSIII was seeking lost rent on office space for periods after EHR vacated office premises located in Las Colinas, Texas. EHR filed a counter suit alleging specific damages due to uninhabitable premises of the office space due to the intolerable conduct of other tenants located on the same floor. On December 23, 2020, the trial court entered a summary judgment against EHR for \$230,712. The judgment provides for post-judgment interest at a rate of 5% per annum until paid and further provides for additional amounts owed should EHR pursue unsuccessful appeals to higher courts. At June 30, 2022, the Company had accrued \$252,583 for this judgment, which is exclusively an EHR obligation.

8. Income Taxes

Income tax provisions for interim quarterly periods are generally based on an estimated annual effective income tax rate calculated separately from the effect of significant, infrequent or unusual items related specifically to interim periods. An income tax benefit for the three or six months ended June 30, 2022 or 2021 was not recognized because tax losses incurred were fully offset by a valuation allowance against deferred tax assets. There were no uncertain tax positions as of June 30, 2022.

9. Equity

Series A Preferred Stock – Our Series A Preferred Stock was originally issued in connection with HTF's acquisition of EHR in 2019. On September 8, 2021, holders of the Company's Series A Preferred Stock elected to convert such shares into shares of the Company's common stock. As a result, 6,328,948 shares of Series A Preferred Stock were converted into 75,947,376 shares of common stock, with each share of Series A Preferred Stock converting into 12 shares of restricted common stock pursuant to the applicable Certificate of Designations.

Series B Preferred Stock Units – On December 30, 2020, the Company sold to certain accredited investors, including Gary C. Evans, our Chief Executive Officer, an aggregate of 135 preferred stock units comprised of (i) one share of Series B Redeemable Convertible Preferred Stock, no par value, and (ii) one warrant exercisable for 50,000 shares of common stock of the Company until December 30, 2022 at an exercise price of \$0.352 per share.

The sale of the preferred stock units for \$10,000 each resulted in aggregate gross proceeds of approximately \$1.35 million, before deducting estimated offering expenses payable by the Company. Substantially all of the proceeds raised in the offering were used to fund the acquisition of assets of Halcyon, expenses related thereto and for general corporate purposes.

Each share of Series B Preferred Stock is initially convertible into 25,000 shares of common stock, subject to adjustment. Holders of Series B Preferred Stock are entitled to receive dividends of 6.00% per annum based on the stated value equal to \$10,000 per share. Except as otherwise required by law, the Series B Preferred Stock does not have voting rights. However, as long as any shares of Series B Preferred Stock are outstanding, the Company will not, without the affirmative vote of the holders of a majority of the then outstanding shares of the Series B Preferred Stock, (a) alter or change adversely the powers, preferences or rights given to the Series B Preferred Stock, (b) alter or amend the related certificate of designation, (c) amend its certificate of incorporation or other charter documents in any manner that adversely affects any rights of the holders of Series B Preferred Stock, (d) repay, repurchase or offer to repay, repurchase or otherwise acquire more than a de minimis number of shares of its common stock, (e) enter into any agreement with respect to any of the foregoing, or (f) pay cash dividends or distributions on any equity securities of the Company other than pursuant to the terms of the outstanding Series B Preferred Stock. The Series B Preferred Stock does not have a preference upon any liquidation, dissolution or winding-up of the Company.

Any or all of the Series B Preferred Stock may be converted, at their holder's option, into 25,000 shares of common stock, as adjusted for any stock dividends, splits, combinations or similar events.

At any time after the occurrence of a "Qualifying Event," the Company, upon 5-day written notice, shall have the right to cause each share of Series B Preferred Stock (and all accrued in-kind dividends with respect thereto) to be converted into common stock. For purposes of this automatic conversion of the Series B Preferred Stock, a "Qualifying Event" shall have occurred if (A) (1) the rolling five-trading day volume-weighted average trading price of shares of the common stock exceeds \$1.00, and (2) there shall be an effective registration statement under the Securities Act of 1933, as amended covering all of the shares of common stock which would be issuable upon conversion of all of the outstanding shares of Series B Preferred Stock or (B) the Company closes a firm commitment underwriting of the common stock on a Form S-1 Registration Statement with aggregate gross proceeds of at least \$5,000,000 at a price per share equal to or greater than \$1.00. In each instance, a conversion may not be made unless the Company has filed an amendment to its Articles of Incorporation effecting an increase in its authorized common stock so that the Company has a sufficient number of authorized and unissued shares of common stock so as to permit the conversion of all outstanding shares.

The Series B Preferred Stock may be redeemed by the Company for its stated value, plus accrued and unpaid dividends, at any time. Initially, redemption payments of 12.5% each of the total amount of Series B Preferred Stock then outstanding plus accrued dividends were due from the Company to each Holder of Series B Preferred Stock at the end of each calendar quarter of 2021. The first required redemption payments totaling \$137,500 were made in April 2021. In May, June and October of 2021, the three holders of the Series B Preferred Stock, including the Company's chief executive officer, entered into transactions in which they accepted the mandatory redemption payment required pursuant to the Series B Preferred Stock certificate of designation in a number of Series B Units to effectively waive the redemption requirement. All other terms of the Series B Units remain unchanged and the holders' ownership interest in the Series B Preferred Units remains the same as it was before such transactions.

Common Stock – At June 30, 2022, the Company had 113,154,002 common shares outstanding. Following is a discussion of common stock issuances during the periods presented:

- Acquisition of Certain Assets of Halcyon In January 2021, the Company issued 6,250,000 shares of common stock valued at \$2.5 million (\$0.40 per share; restricted from trading for a period of up to one year) in the acquisition.
- 2021 First Quarter Issuances of Common Stock Units In the first quarter of 2021, the Company issued 800,000 common stock units for total proceeds of \$400,000. Each common stock unit consists of one share of common stock and a warrant for the purchase of two shares of common stock for \$0.50 each. Each warrant is exercisable any time before its expiration on the second anniversary of its issuance. The Company allocated the total proceeds based on the relative fair values of the common stock and warrants. The fair value of the warrants was determined using an options valuation model with key assumptions including a risk-free interest rate of 0.11% and historical volatility of 272%. A total of \$263,293 was allocated to the warrants and reported in additional paid-in capital.
- Warrant Exercises In the first quarter of 2021, the Company received \$2,967,000 for the exercise of 8,428,976 outstanding warrants. In the fourth quarter of 2021, the Company received \$375,000 for the exercise of 1,065,340 outstanding warrants.
- Issuances for Exchange or Conversion of Debt The Company issued a total of 1,618,660 common shares for the exchange or conversion of outstanding debt in the first quarter of 2021.
- Stock-based Compensation The Company issued 500,000 restricted common shares valued at \$155,000 as incentive compensation to two executives who joined the Company in the first quarter of 2021.
- Issuance for Extension of Secured Note The Company issued 60,000 common shares as consideration for extensions of the maturity of a senior note in 2022. Refer to Note 5.

Common Stock Warrants Outstanding - Following is a summary of warrants outstanding as of June 30, 2022:

	# of Warrants	 (each)	Expiration Date	Method of Exercise
Issued in December 2020 with Series B preferred units (1)	5,500,000	0.352	December 30, 2022	Cash
Issued in December 2020 with subordinated note to investor	500,000	\$ 0.352	December 30, 2022	Cash
Issued in Q1 2021 with common stock units (1)	1,600,000	\$ 0.500	January-February, 2023	Cash
Issued in Q4 2021 with common stock units (1)	958,333	\$ 0.600	October-December, 2023	Cash
Total warrants outstanding at June 30, 2022	8,558,333			

⁽¹⁾ May be redeemed for \$0.0001 per warrant at the Company's option with 30 days advanced notice should the weighted average market price of common stock exceed \$1.00 for any five out of seven consecutive trading days with a minimum average daily trading volume for such seven-day period of at least 25,000 shares of common stock.

Following is a summary of outstanding stock warrants activity for the periods presented:

	# of Warrants	Ave	erage se Price
Warrants as of December 31, 2021	8,808,333	\$	0.407
Cancelled	(250,000)	\$	0.400
Warrants as of June 30, 2022	8,558,333	\$	0.407

10. Stock-Based Compensation

We award restricted stock or stock options as incentive compensation to employees. Generally, these awards include vesting periods of up to three years from the date of grant.

The 2021 Omnibus Incentive Plan ("2021 Plan") was adopted by our Board on July 1, 2021. The 2021 Plan provides for the initial reservation of 15 million shares of common stock for issuance, and provides that the maximum number of shares that may be issued pursuant to the exercise of ISOs is 15 million. The number of shares of common stock available for issuance under the 2021 Plan constituted approximately 13.1% of the Company's fully diluted common shares outstanding as of the date of Board approval, including shares issuable upon the conversion of preferred shares, as calculated on an as-converted basis. On the one-year anniversary date of the 2021 Plan, the number of shares of common stock reserved for issuance thereunder shall automatically increase to 20% of the fully diluted common shares outstanding, including shares issuable upon the conversion of preferred shares, as calculated on an as-converted basis.

In the first quarter of 2021, the Company issued 500,000 restricted shares valued at \$155,000 as incentive compensation to two executives who joined the Company. Compensation expense related to these awards totaled \$38,750 and \$81,000 for the three and six months ended June 30, 2021, respectively. These awards became fully vested in January 2022.

In the fourth quarter of 2021, the Company awarded options for 13,850,000 shares of the Company's common stock as incentive compensation. One-third of the awarded options vested immediately with the remaining options vesting in two equal annual tranches over the next two years. Vested options may be exercised at any time until their expiration after 10 years at an exercise price of \$0.76 per share. Unvested options are forfeited upon termination of employment.

Compensation expense for stock option grants was recognized based on the fair value at the date of grant using the Black-Scholes option pricing model. Key assumptions included a risk-free interest rate ranging from 1.18% to 1.28%, historical volatility ranging from 331% to 643% and an expected life of the stock options ranging from five to six years. We recognized \$1.3 million of compensation expense for these option awards in each of the quarters ended June 30, 2022. As of June 30, 2022, there was \$3.5 million of total unrecognized compensation cost related to options to be recognized over a remaining weighted average period of 18 months.

The following table summarizes options outstanding, as well as activity for the periods presented:

	Shares	Av Gra	eignted Verage Int Date r Value	A E	eignted verage xercise Price	Aggregate Intrinsic Value
Outstanding at December 31, 2021	13,850,000	\$	0.76	\$	0.76	-
Granted	 _	\$	-	\$	-	-
Outstanding at June 30, 2022	13,850,000	\$	0.76	\$	0.76	-

The remaining weighted average contractual life of exercisable options at June 30, 2022 was 9.3 years.

11. Discontinued Operations

In 2019, management determined to fully divest of EHR's oil and gas activities. As such, these activities are presented as discontinued operations for each of the periods presented.

The following is a summary of the carrying amounts of major classes of assets and liabilities of the discontinued operations to assets and liabilities held for sale:

	June 30, 2022	December 31, 2021		
Assets - Oil and natural gas properties held for sale, at cost Accumulated DD&A Total assets of discontinued operations held for sale	\$ 1,874,849 (1,874,849) \$ -	\$ 1,874,849 (1,874,849) \$ -		
Liabilities Accrued liabilities Asset retirement obligations Revenue payable Current liabilities of discontinued operations held for sale	\$ 55,572 52,368 52,117 160,057	\$ 48,997 52,368 52,117 153,482		
Asset retirement obligations - Long-term liabilities of discontinued operations held for sale Total liabilities of discontinued operations held for sale	193,816 \$ 353,873	162,948 \$ 316,430		

The following is a summary of the major classes of line items constituting loss on discontinued operations shown in the consolidated statements of operations:

Earnings (loss) per share	Φ.	(0.00)	Φ	(0.02)	Φ	(0.04)	Ф	(0.11)
Basic	\$ \$	(0.02)		(0.03)		(0.04)		(0.11)
Diluted	2	(0.02)	\$	(0.03)	\$	(0.04)	\$	(0.11)

The computation of diluted earnings per common share excludes the assumed conversion of the Series B Preferred Stock and outstanding convertible notes and exercise of common stock options and warrants in periods when we report a loss. The dilutive effect of the assumed exercise of outstanding options and warrants was calculated using the treasury stock method.

14. Subsequent Events

Advances under Convertible Promissory Note – In the third quarter of 2022 through the date of this filing, our CEO made advances totaling \$58,000 to the Company under the existing convertible promissory note due September 30, 2022.

Advances under Promissory Note to Investment Hunter, LLC – In the third quarter of 2022 through the date of this filing, Investment Hunter, LLC made advances totaling \$11,500 to the Company under the existing promissory note due September 30, 2022.

Sale of inventories – In July 2022, the Company entered into an agreement for the sale of 66,782 pounds of dried hemp biomass from its inventories on-hand for a sales price of \$1.50 per pound. Deliveries and payment of the \$100,173 sales proceeds are scheduled monthly through December 2022. The Company received an initial down payment of \$40,069.

New indebtedness – In August 2022, the Company received proceeds totaling \$105,000 from new notes payable to three board directors. The notes bear interest at 10% per annum and mature on September 12, 2022.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the "Management's Discussion and Analysis of Financial Condition and Results of Operations" contained in our Annual Report on Form 10-K ("Annual Report") for the year ended December 31, 2021 filed with the Securities and Exchange Commission ("SEC"), as well as the financial statements and related notes appearing therein and elsewhere in this Quarterly Report. The following discussion contains forward-looking statements that reflect our future plans, estimates, beliefs and expected performance. The forward-looking statements are dependent upon events, risks and uncertainties that may be outside our control. We caution you that our actual results could differ materially from those discussed in these forward-looking statements. Factors that could cause or contribute to such differences are discussed elsewhere in this Quarterly Report, particularly in the "Cautionary Note Regarding Forward-Looking Statements" and in our Annual Report under the heading "Item 1A. Risk Factors," all of which are difficult to predict. In light of these risks, uncertainties and assumptions, the forward-looking events discussed may not occur. We do not undertake any obligation to publicly update any forward-looking statements except as otherwise required by applicable law.

Overview

We are a holding company active within the "hemp" space. We were incorporated on August 21, 2021 in the State of Delaware. The Company was originally incorporated on July 28, 2008 in the State of Colorado. On November 27, 2019, we purchased approximately 94% of the common stock of Energy Hunter Resources, Inc. ("EHR") in a series of transactions accounted for as a reverse merger. Upon closing, we changed our name to Generation Hemp, Inc.

There is limited historical financial information about our Company upon which to base an evaluation of our future performance. We cannot guarantee that we will be successful in the hemp business. We are subject to the risks associated with the regulatory environment in the industry in which we operate. In addition, we are subject to risks inherent in a small company, including limited capital resources, delays and cost overruns due to price and cost increases. There is no assurance that future financing will be available to our Company on acceptable terms. Additional equity financing could result in dilution to existing shareholders.

We provide post-harvest and midstream services to growers by drying, processing, cleaning and stripping harvested hemp directly from the field and wetbaled at our 48,000 square foot facility located in Hopkinsville, Kentucky. Additionally, we offer safe storage services for processed hemp, which enables farmers to maximize strategic market timing. In August 2021, the Company launched its animal bedding consumer goods product line made from the hemp hurd byproduct that is produced from its hemp processing operations.

We also generate revenue from rental of our "Cannabis Zoned" (Hemp) warehouse property located in Denver, Colorado currently leased to a hemp seed company.

As of June 30, 2022, EHR held an approximate 8% working interest in an oil & gas property located in Cochran County, Texas within the Slaughter-Levelland Field of the San Andres formation in the Northwest Shelf of West Texas. EHR's oil & gas activities are currently held for sale and are presented in the consolidated financial statements as discontinued operations.

Recent Activities -

New Business Line – During the second quarter of 2022, management and the Board decided to enter a new but related line of business – bitcoin mining. Management determined after research that hemp biomass can be burned in a biomass boiler to generate heat and steam to drive a turbine for generating electricity. The BTU value of hemp is similar to wood waste generated at saw mills. Hemp plants grow to maturity within six to eight months whereas trees mature in excess of ten years.

The Company subsequently formed a new company, GenCrypto, LLC (a Delaware limited liability company) with a 50% partner, Cerberus Digital, LLC, an affiliate of Cryptech Solutions, Inc. Cryptech is one of the largest resellers of bitcoin mining equipment in North America.

GenCrypto now has approximately ten different bitcoin locations identified and either under contract, under letter of intent, or in final negotiating status, located in three states and in Costa Rica. All of these site locations are deemed "green" based upon the power being provided either from the local utility or coop. They range in power size from 1.1 megawatts to 50 megawatts. Additionally, GenCrypto has been contacted by several larger bitcoin mining operators concerning utilizing some of these mining locations under "hosting" arrangements.

The Company anticipates closing its first acquisition which is currently operational in September 2022.

Grant Funding Opportunity – The U.S. Department of Agriculture has recently made available a funding opportunity for the Partnerships for Climate-Smart Commodities projects of up to \$1 billion in order to build markets and invest in America's climate-smart farmers, ranchers and forest owners to strengthen U.S. rural and agricultural communities. Within this opportunity is the goal to develop markets and promote the resulting climate-smart commodities. The Company, through its wholly-owned subsidiary GENH Halcyon Acquisition, LLC, is an established floral hemp processor that has provided years of drying, cleaning, stripping and storing hemp, along with acting as a conduit between the supply side of hemp through farmers and the demand side of hemp through extraction labs, buyers and downstream products. Since its inception, the Company has also been a proponent and developer of climate-smart applications of fiber hemp for industry and has helped develop two new U.S. market products to utilize hemp hurd that was previously a waste product.

On May 6, 2022, the Company applied for a substantial grant under this funding opportunity that will contractually engage farmers to grow specific hemp genetics, thereby providing them lower risk costs that will be included in grant funding. Under this project, the Company will also build out a hemp supercenter from the nucleus of its current, established operation that will provide the necessary processing capacity for all varieties of hemp at one central location. This will include storage, logistics, testing and tracking capabilities. The Company has obtained a large group of commitments from industry players who have agreed to participate in the program.

Liquidity – The Company is dependent upon obtaining additional funding to continue ongoing operations and to pursue its strategy and execute its acquisition plans.

In the six months ended June 30, 2022, the Company used \$1.0 million of cash for its operating activities. At June 30, 2022, the Company's current liabilities, including financing obligations due within one year, totaled \$6.0 million as compared with its current assets of \$364 thousand.

The Company will continue to pursue additional capital raising opportunities in order to fund future acquisitions and meet its obligations as they become due. We may not be successful in obtaining additional financing needed. In the event financing cannot be obtained, the Company may not be able to satisfy these plans and obligations. These factors raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Impact of COVID-19 Pandemic on Our Business – Our business, results of operations and financial condition were adversely affected by the COVID-19 pandemic. The COVID-19 pandemic and measures taken to contain it subjected our business, results of operations, financial condition, stock price and liquidity to a number of material risks and uncertainties, all of which may continue or may worsen.

Results of Operations

Three Months Ended June 30, 2022 Compared to Three Months Ended June 30, 2021

The net loss for the three months ended June 30, 2022 was \$2.1 million as compared with a net loss of \$1.2 million for the same period of 2021. The net loss for the three months ended June 30, 2022 includes \$1.3 million of stock-based compensation expense for stock options issued to executives and our board of directors and \$261 thousand for depreciation and amortization largely due to the Halcyon acquisition. Excluding these non-cash items, the Company's cash loss was \$560 thousand in the three months ended June 30, 2022 as compared with a loss of \$775 thousand in the same period of 2021. The first part of each calendar year is typically a slower period for midstream operations within the hemp industry until the annual harvest begins in late-summer. In 2022, we commenced processing of six million pounds of hemp biomass for last year's harvest of our largest customer.

The Company reports its oil & gas activities as discontinued operations. Loss from discontinued operations was \$28 thousand for the three months ended June 30, 2022 as compared with a loss of \$6 thousand in the 2021 period, principally consisting of non-cash items each period. Results of operations for the Company's remaining oil & gas activities have been significantly reduced due to lower field productivity.

Revenue. Revenue from continuing operations for the first quarter of 2022 totaled \$354 thousand as compared with \$26 thousand for the same period of 2021. We generate revenue from post-harvest and midstream services in the hemp industry and from rental to a hemp seed company of our warehouse property located in Colorado.

Our post-harvest and midstream services revenue totaled \$332 thousand in the second quarter of 2022 as compared with \$3 thousand in the 2021 period. In June 2022, we commenced hemp processing of six million pounds of hemp biomass from last year's harvest of our largest customer. This customer had delayed processing in 2021 due to weaker hemp product pricing. We processed 862 thousand pounds of this stored hemp biomass in June 2022 and are continuing processing at this time.

Rental revenue totaled \$23 thousand in the 2022 and 2021 periods. The lease of the Company's Denver warehouse expires on August 1, 2023 and provides for a rental of \$7.5 thousand per month.

Cost of Revenue. Cost of revenue for the second quarter of 2022 was \$164 thousand as compared with \$112 thousand in the same period of last year. Our gross margin on hemp processing in the second quarter of 2022 was 50%. We expect these stronger margins to continue during processing periods. In periods when we are not processing, we take steps to reduce our operating expenses.

General and Administrative Expense. General and administrative expenses totaled \$1.9 million for the three months ended June 30, 2022 as compared with \$514 thousand in 2021 period. The increase in general and administrative expense is principally due to non-cash charges for stock-based compensation which totaled \$1.3 million in the three months ended June 30, 2022 as compared with \$39 thousand in the 2021 period.

Depreciation and Amortization. Depreciation and amortization expense totaled \$261 thousand in the three months ended June 30, 2022 as compared with \$341 thousand for the same period of 2021.

Other Income/Expense. Total other expense was \$124 thousand for the three months ended June 30, 2022 as compared with \$207 thousand for the comparable 2021 period. The largest item of total other expense is interest expense which has decreased due to conversions of indebtedness to equity in 2021.

Loss from Discontinued Operations. In the three months ended June 30, 2022, we recognized a loss from discontinued operations of \$28 thousand as compared with a loss of \$6 thousand in the three months ended June 30, 2021. The major classes of line items constituting the loss on discontinued operations are presented in Item I, "Financial Statements – Note 11 – Discontinued Operations." In the 2022 period, we revised our estimates of future asset retirement obligations for changes in inflation and interest rates. Until we fully dispose of our remaining oil & gas property interests, we expect lower future revenues and costs as production activities have declined substantially. We do not anticipate making future investment of growth capital into these properties.

The net loss for the six months ended June 30, 2022 was \$4.6 million as compared with a net loss of \$3.0 million for the same period of 2021. The net loss for the 2022 period includes \$2.6 million of stock-based compensation expense for stock options to our executives and board of directors and \$482 thousand for depreciation and amortization largely due to the Halcyon acquisition. Excluding these non-cash items, the Company's cash loss was \$1.5 million in the six months ended June 30, 2022 as compared with a loss of \$2.2 million in the same period of 2021. The first part of each calendar year is typically a slower period for midstream operations within the hemp industry until the annual harvest begins in late-summer. The Company's hemp processing facilities were shut-in for much of the first six months of each year to limit operating expenditures. As mentioned above, we commenced processing in June 2022 of hemp biomass harvested last year by our largest customer.

Loss from discontinued operations was \$40 thousand for the six months ended June 30, 2022 as compared with a loss of \$10 thousand in the 2021 period, principally consisting of non-cash items each period. Results of operations for the Company's remaining oil & gas activities have been significantly reduced due to lower field productivity.

Revenue. Revenue from continuing operations for the first six months of 2022 totaled \$377 thousand as compared with \$93 thousand for the same period of 2021.

Our post-harvest and midstream services revenue totaled \$332 thousand in the 2022 period as compared with \$48 thousand in the 2021 period. The Company's hemp processing facilities were shut-in for much of the first half of each year to limit operating expenditures. As mentioned, we commenced processing of hemp biomass for our largest customer in June 2022. In 2021, our processing was limited until the late-summer harvest.

Rental revenue totaled \$45 thousand in the 2022 and 2021 periods. The lease of the Company's Denver warehouse expires on August 1, 2023 and provides for a rental of \$7.5 thousand per month.

Cost of Revenue. Cost of revenue for the first six months of 2022 was \$269 thousand as compared with \$270 thousand in the same period of last year. Our gross margin on post-harvest processing and midstream services are expected to be 50% or more during peak operating periods. In the first part of each year we take steps to reduce operating costs by idling our facilities.

Merger and Acquisition Costs. We incurred \$16 thousand of costs for acquisition costs in the 2021 period for closing of the Halcyon acquisition. The amount of future expenses of this type that we incur will depend upon our future acquisition activities. The Company incurred no such expenses during the six months ended June 30, 2022.

General and Administrative Expense. General and administrative expenses totaled \$3.9 million for the six months ended June 30, 2022 as compared with \$1.6 million in 2021 period. The increase in general and administrative expense is principally due to non-cash charges for stock-based compensation which totaled \$2.6 million in the 2022 period as compared with \$81 thousand in the 2021 period. The Company had lower legal and professional expenses during the 2022 period.

Depreciation and Amortization. Depreciation and amortization expense totaled \$482 thousand in the six months ended June 30, 2022 as compared with \$691 thousand for the same period of 2021.

Other Income/Expense. Total other expense was \$287 thousand for the six months ended June 30, 2022 as compared with \$459 thousand for the comparable 2021 period. The largest item of total other expense is interest expense which has decreased due to conversions of indebtedness to equity in 2021.

Loss from Discontinued Operations. In the six months ended June 30, 2022, we recognized a loss from discontinued operations of \$40 thousand as compared with a loss of \$10 thousand in the same period of 2021. The major classes of line items constituting the loss on discontinued operations are presented in Item I, "Financial Statements – Note 11 – Discontinued Operations." As noted above, we revised our estimates of future asset retirement obligations for changes in inflation and interest rates in the 2022 period resulting in higher non-cash expense. Until we fully dispose of our remaining oil & gas property interests, we expect lower future revenues and costs as production activities have declined substantially. We do not anticipate making future investment of growth capital into these properties.

Liquidity and Capital Resources

Our primary source of cash from continuing operations includes post-harvest and midstream services and rental revenue. Our primary uses of cash include our operating costs, general and administrative expenses and merger and acquisition expenses.

Cash flow information from continuing operations for the first six months of 2022 was as follows:

- Cash used in operating activities was \$1 million principally due to the net loss adjusted for non-cash items.
- The Company had no net cash used for investing activities during the period.
- Net cash from financing activities totaled \$1 million from advances under notes payable made by our CEO and his related company to fund our cash needs

We used \$3 thousand of cash for discontinued operations in the first six months of 2022.

Funding Requirements

We expect to continue to incur significant expenses and operating losses for the foreseeable future. We anticipate that our expenses may increase substantially as we grow our hemp business.

We expect that we will require additional capital to fund operations, including hiring additional employees, completing acquisitions and funding capital expenditures during the next twelve-month period.

Because of the numerous risks and uncertainties associated with the development and commercialization of our business, we are unable to estimate the amounts of increased capital outlays and operating expenses. Our future capital requirements will depend on many factors, including:

- our success in identifying and making acquisitions of profitable operations;
- our ability to negotiate operating contracts with growers and others within the hemp industry on favorable terms, if at all;
- deriving revenue from our assets and operations; and
- the cost of such operations and costs of being a public company.

Until such time, if ever, as we can generate substantial revenues, we expect to finance our cash needs through a combination of equity offerings and debt financings. We do not have any committed external source of funds. To the extent that we raise additional capital through the sale of equity or convertible debt securities, the ownership interest of our shareholders will be diluted, and the terms of these securities may include liquidation or other preferences that adversely affect the rights of common shareholders. Debt financing, if available, may involve agreements that include covenants limiting or restricting our ability to take specific actions, such as incurring additional debt, making capital expenditures or declaring dividends. If we are unable to raise additional funds through equity or debt financings when needed, we may be required to delay, limit, reduce or terminate our growth plans and future commercialization efforts.

Indebtedness

The Company's indebtedness at June 30, 2022 is presented in Item I, "Financial Statements – Note 5 – Notes Payable – Related Parties" and in Item I, "Financial Statements—Note 6 – Other Indebtedness."

Subsequently, the Company has received additional advances under new and existing note arrangements. Refer to Item I, "Financial Statements—Note 14 – Subsequent Events."

Off-Balance Sheet Arrangements

As of June 30, 2022, we had no material off-balance sheet arrangements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Quantitative and qualitative disclosures about market risk are included in Item 7A, "Quantitative and Qualitative Disclosures about Market Risk," of our Annual Report.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

As required by Rule 13a-15(b) of the Exchange Act, we have evaluated, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this quarterly report. Our disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed by us in reports that we file under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure, and is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC. Based upon that evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were ineffective as of June 30, 2022 due to the material weaknesses previously identified as described below.

Previously Reported Material Weaknesses

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements would not be prevented or detected on a timely basis.

We previously identified material weaknesses in our internal control over financial reporting. Based on our assessment for the year ended December 31, 2021, management identified a material weakness in internal control over financial reporting related to the accounting for business combination transactions.

Management Plans to Remediate Material Weakness. The Company has continued the process of designing and implementing effective internal control measures to improve its internal controls over financial reporting and remediate the reported material weakness. The Company's efforts include implementing additional reviews of business combination transactions and modifying the Company's instructions to valuation specialists and reviews of their work product. We will consider the material weakness remediated after the applicable controls operate for a sufficient period of time, and management has concluded, through testing, that the controls are operating effectively.

Changes in Internal Control over Financial Reporting

We regularly review our system of internal control over financial reporting and make changes to our processes and systems to improve controls and increase efficiency, while ensuring that we maintain an effective internal control environment. Changes may include such activities as implementing new, more efficient systems, consolidating activities and migrating processes.

We are taking actions to remediate the material weaknesses relating to our internal control over financial reporting, as described above. Except as otherwise described herein, there have been no changes in our internal control over financial reporting during the quarter ended June 30, 2022 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Due to the nature of our business, we may become, from time to time, involved in routine litigation or subject to disputes or claims related to our business activities. While the outcome of these proceedings cannot be predicted with certainty, in the opinion of our management, there are no pending litigation, disputes or claims against us which, if decided adversely, individually or in the aggregate, will have a material adverse effect on our financial condition, cash flows or results of operations. For a description of our legal proceedings, see Item I, "Financial Statements – Note 7 – Commitments and Contingencies" in the Condensed Consolidated Financial Statements included in Part I of this Quarterly Report.

Item 1A. Risk Factors

In addition to the other information set forth in this Quarterly Report, you should carefully consider the risk factors and other cautionary statements described under the heading "Item 1A. Risk Factors" included in our Annual Report and the risk factors and other cautionary statements contained in our other SEC filings, which could materially affect our businesses, financial condition or future results.

Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition or future results. There have been no material changes in our risk factors from those described in our Annual Report.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Since January 1, 2022, we have sold or issued securities without registering the securities under the Securities Act as shown below:

Issuance for Extension of Secured Note – The Company issued 60,000 common shares as consideration extensions of the maturity of a senior note in the first six months of 2022. Refer to Item I, "Financial Statements – Note 5 – Notes Payable – Related Parties".

Item 4. Mine Safety Disclosures

No response required.

Item 5. Other Information

No response required.

Item 6. Exhibits

10.1*	Amended and Restated Promissory Note by Generation Hemp, Inc. with Gary C. Evans as holder, dated July 1, 2022
10.2*	Revised and Extended Unsecured Promissory Note, dated May 19, 2022, with Investment Hunter, LLC as holder, dated July 1, 2022
